

_____ Name _____

SNACK ATTACK

After the program, visit Mote's Shark Cam again:
www.seatrek.org/sharkcam.htm

Videoconference

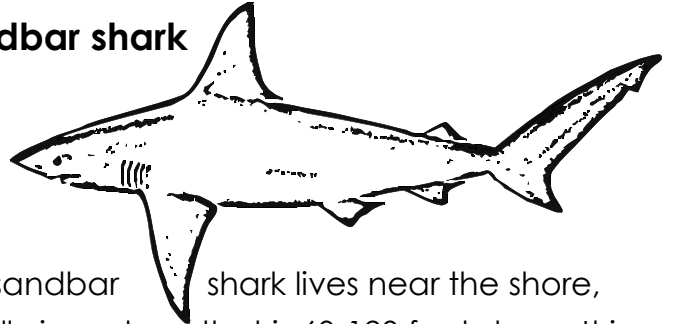

vid · e · o · con · fer · ence

When two or more people are in different places, they can use cameras, microphones and other technology to talk to each other. This type of meeting is a **videoconference**.

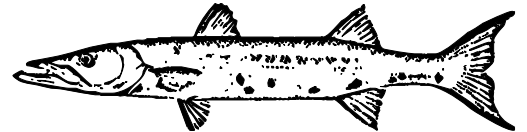

Fill in the blank.

sandbar shark

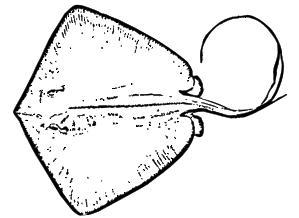

The sandbar shark lives near the shore, usually in water that is 60-120 feet deep. It is both a **predator** and a **scavenger**. Most of the time it eats crabs, clams and small fish living on the ocean bottom.

barracuda

Young barracuda live in _____ beds. Many adult barracuda have **poisonous** _____, so you should not eat them.

Atlantic stingray

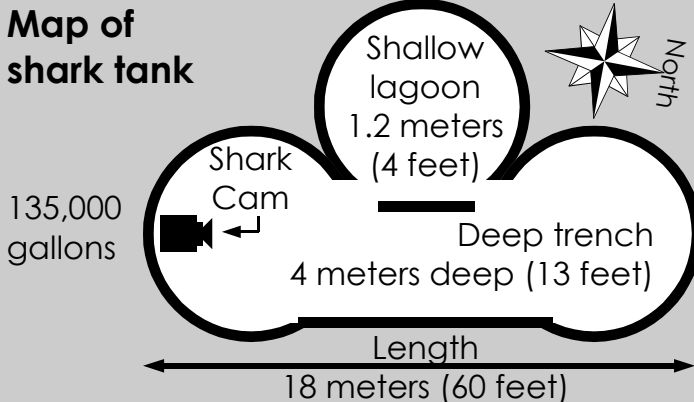

Stingrays are related to the sharks. They live in bays and **estuaries**. They have _____ tail spines.

There are about 21 different kinds of fish in our aquarium. Put a check next to the ones that you saw today.

SNACK ATTACK CHALLENGE

Can you answer these questions?

- 1 How long does it take for the fish at the bottom to eat all their food?

- 2 WHAT shark or bony fish eats the fastest?

- 3 Who do you think had the most for breakfast?
